"We chose to book Afrocat as a feature act for our performance at the Impulstanz Festival, Vienna, where we hosted the closing night.

Afrocat performed professionally in every way you can expect from a musician.

Her musical selection complemented our event perfectly.

She read the audience well, and kept up the high level of energy.

She didn't hesitate for a second to put in the extra effort, when we were asked to play two hours longer than initially contracted.

I can therefore recommend booking her for any event, in which you wish to have a crowded dancefloor, no matter whether your audience is keen on Funk, Reggae, or Jungle"
